

01 · THE COST OF NOT SEEING

What is one process costing you every month?

In Rand.

Small stoppages. Slow cycles. Imbalanced stations. None of it reaches a report. All of it costs you.

02 · THE SERVICE

The Process Health Check.

An engineer on your floor. You keep running.

- 01 **We walk one process.**
End to end, mapped live in Atlas.
- 02 **You get a Rand figure.**
Where it leaks. What it costs. Your numbers, not estimates.
- 03 **The account is yours.**
Created on the day, under your email. The map and the figure live in it, and they stay yours.
- 04 **Engineering, not AI guesses.**
Real formulas. We measure the process, not the people.

03 · PRICED BY THE PROCESS

Sized on a ten minute call. Fixed before we arrive. Payment confirms the booking.

Standard R1,950 A single stage process, up to about ten steps. A morning on your floor.	Extended R3,500 A longer or multi stage process, ten to twenty steps. A full day.	Complex R5,500 A large process across stages or shifts, twenty steps or more. Two visits.
--	--	--

On site across the greater Durban and greater Johannesburg industrial regions. Travel beyond is quoted at booking.

04 · FROM CALL TO NUMBER

- 01 **Enquire.**
Send an enquiry through the website. Choose Process Health Check.
- 02 **The sizing call.**
Ten minutes, free. We size the process and give you a fixed price on the call.
- 03 **The visit.**
Kick off, floor walk, mapping, cost inputs. Your team keeps working. We watch work as it happens.
- 04 **The number.**
The analysis opens. Your cost of loss, in Rand, from your own numbers. Then the app is in your hands.

05 · YOURS EITHER WAY

		
Your own Atlas account.	Your data stays yours.	No disruption.
One product line, one mapped process, its analysis and its Rand figure. Free tier, no card, forever.	It lives in your account, under your login, exportable. Nothing sits on our laptop.	Production never stops. People are safe. We map the system, not the workers.

06 · IF YOU WANT MORE

The check ends at the number. What most factories do next is keep watching it.

Pro	R499/mo	Unlimited lines and maps, measured cycle times, AI line analysis.
Max	R749/mo	The whole factory. Shift tracking, factory diagnosis, proven ROI in Rand.

No obligation. The free tier and everything we mapped stays yours.

07 · THE DEMO
