Get on the water fast, make
your investment last

Boat Covers

Never hassle with the cumbersome task of uncovering/covering your boat again. Our covers work simply by pressing a button. Large cruisers, houseboats, fishing, and speedboats – we've got you covered. The Touchless Boat Cover® provides superior protection and unmatched convenience.

- All covers are customized to the length, width, and height of your boat, dock, and boatlift.
- The Touchless Boat Cover® side heights vary based on desired coverage and accessories like bimini tops, arches, and towers.
- Our covers can be adapted to virtually any dock or lift application.
- Designed to endure the harsh marine environment.

• Complete customization. Total protection.

BoatHouse Covers

Touchless Boat Cover® is custom made to suit any boathouse or dock application, including:

- Custom cavity design for additional coverage for towers, t-tops and bimini tops.
- Boat accessories are tucked up inside of boathouse rafters maximizing the height the boat can be raised in the boat house for complete protection.
- Custom zippered openings can be installed at any desired location for access to boat lift components, lights, or overhead storage.
- Openings built into fabric to allow boat lift components to pass through cover.
- Covers are designed to work with any existing boatlift cables and existing pilings.

Your boathouse, our custom cover.

Marina Boat Covers

Securely mooring your boat at a Marina offers some security for your investment. The Touchless Boat Cover® provides added protection from the harsh elements and prying eyes.

All covers are customized to the length, width, and height of your boat.

- The Touchless Boat Cover® side heights vary based on desired coverage and accessories like bimini tops, arches, and towers.
- Shield your boat from the harmful rays of the sun and save thousands of dollars in boat detailing and gel-coat restoration. Retain a substantially higher resale value.
- Enjoy the benefit of added security for your boat as potential thieves are unable to view your leisure investment.

• Extra protection, added security.

Personal Watercraft Covers

Often the boat is the watercraft that gets the protection, while the WaveRunner™ or Jet Ski™ is left to suffer damage from the harsh sun, strong winds, or damaging hail. Touchless Boat Covers® have the ability to customize the shape and size to be the perfect companion for your personal watercraft. You no longer have to worry about cumbersome snaps or complicated stretching systems to protect it from the elements.

Protect your personal watercraft with a custom Touchless Boat Cover® in any application: open or under roof, floating docks, cable lifts, or floating lifts.

Our PWC covers are adaptable to virtually every PWC lift on the market.

• Hop on and fly across the lake.

Canopy Covers

Our waterproof fabric canopies are custom made for your boat and slip.

Enjoy peace of mind with added protection from the sun's harsh rays and rough storms that could bring damaging hail. The Touchless Boat Cover® custom canopy protects your investment and helps maintain its value longer.

Our covers are adaptable and mount to virtually any lift or dock.

All canopies are custom made to the length, width, & height of your boat, boathouse, dock, and boatlift.

The canopy fabric can be easily removed quickly if necessary.

Protect your investment.

RV, Land, & Trailer Covers

Storing your RV or boat on land doesn't mean it's immune to the harsh conditions of nature.

The Touchless Cover® for RV/ trailers provides protection and easy access to your investments. Large RV's are particularly vulnerable, yet surprisingly easy to protect. A simple touch of a button, and you can roll out and be on your way. Why spend thousands renting a parking space with no coverage when you can have the Touchless Cover® for full protection – and a higher resale on your investment.

All RV/Trailer covers are customized to the length, width, height and area where the vehicle is stored.

Side heights can vary based on desired coverage and accessories.

• Even on land, we've got you covered.

Golf Cart Covers

Golf carts are particularly vulnerable to the environmental elements that weather and degrade the mechanics of your vehicle.

The Touchless Cover® has a unique and patented design that is adaptable to any location. Its sleek look keeps the homeowner's association off your back, while giving you the peace of mind that your golf cart is protected.

Never again worry about storms, or that the summer sun will fade your paint or cause the seats to be too hot.

When parked under the Touchless Cover® all you will have to worry about is remembering to wear sunscreen while out on the course.

Motorcycle Covers

Motorcycles often take the back seat to cars when it comes to the garage.

Bikes are susceptible to harsh environmental elements that will weather and degrade the mechanics of your vehicle. When the garage is full, the motorcycle is often left to fend for itself outside. The Touchless Cover™ has a unique and patented design that makes it adaptable to any location.

Now you can have the same easy access as if you were able to pull right in your garage. Never again worry during a storm, or through the hot summer, that your bike is taking a beating out in the elements.

All motorcycle and golf cart covers are customized for the length, width, height, and area where the vehicle is stored. Side heights can vary based on desired coverage and accessories. 11-ounce, marine grade fabric is waterproof, UV and mildew resistant, and available in 20 colors.

Cover Colors

to match your personality.

- The Touchless Cover® is available in 10 stock colors and 10 special order* colors.
- Fabric is backed with a 7-year limited warranty.
- The top and sides can be customized to meet desired color schemes as single tone for the entire cover, or a two-tone option.
For example:
Top = Chocolate Brown
Sides = Hemp Beige

* Special order colors and two-tone are subject to additional charges.

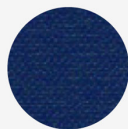

** Color swatches are for reference only, please request fabric samples for accurate color matchings.
