

# AMY LITTLEFIELD-BOUSAMRA

## SUMMARY

UI-focused Front-End Developer with 4+ years of experience building and maintaining interactive, accessible web applications for enterprise travel platforms. Strong foundation in HTML, CSS, JavaScript, responsive design, and UI debugging, with a track record of rapidly implementing client requests, resolving production issues, and improving usability and consistency at scale. Experienced translating Figma and design system specifications into production-ready interfaces. Currently deepening expertise in React, TypeScript, and modern component-driven architectures. Collaborative, detail-oriented engineer with a strong sense of ownership and commitment to clean, maintainable UI code.

## EXPERIENCE

### Front-End Web Developer/UI/UX Designer

Travel and Leisure Co | Orlando - Remote, MI | June 2021 - November 2025

- Developed and maintained user-facing interfaces for enterprise travel booking applications, focusing on usability, accessibility, and responsive design across devices.
- Translated Figma and design specifications into production-ready UI using HTML, CSS, JavaScript, jQuery, and Bootstrap, ensuring consistency with evolving design standards.
- Collaborated cross-functionally with design, marketing, and engineering teams to implement promotional features using reusable, scalable UI patterns.
- Led front-end debugging and maintenance efforts, resolving cross-browser compatibility issues, and improving UI consistency across legacy and modern codebases.
- Optimized existing interfaces to improve accessibility, responsiveness, and overall user experience, incorporating usability feedback and best practices.
- Utilized Git-based version control and Bash scripting to perform mass updates, manage deployments, and streamline UI changes across multiple environments. Supported deployment workflows by uploading and downloading scripts via AWS, deploying builds to staging environments, and coordinating production releases.
- Assisted with Salesforce integrations and updates, ensuring front-end compatibility, and smooth cross-system functionality.
- Conducted usability testing, and incorporated feedback to refine interactive flows and user journeys.
- Maintained documentation for UI standards, workflows, and deployment processes, contributing to team-wide best practices.

### Stony Point Web Design

Self Employed Web | Traverse City, Michigan | June 2015 - June 2021

- Designed and developed responsive, user-focused web interfaces for a variety of clients using HTML, CSS, and JavaScript, adapting solutions to different business and content needs.
- Built and customized WordPress and PHP-based websites, implementing layout changes, styling updates, and feature enhancements to meet client requirements.
- Translated client goals and design direction into clean, accessible layouts, ensuring consistency across browsers and devices.
- Managed Git-based version control to track changes, maintain code quality, and streamline iteration across projects.

## EDUCATION AND TRAINING

### Bachelor of Science

Web Development  
Full Sail University, Winter Park, FL  
May 2015

### Master of Arts

Production  
Humboldt State University, Arcata, CA  
June 2001

## SKILLS

### Frontend and UI development:

JavaScript (ES6+), HTML5, CSS3 (Flexbox, Grid, animations), responsive web design, cross-browser compatibility, jQuery, DOM manipulation

### Modern frameworks (in progress):

React, Next.js, TypeScript — actively learning component-based architecture and state management

**UI engineering practices:** design systems, component architecture, performance optimization, accessibility (WCAG), usability, and UX implementation, code refactoring, and debugging

**APIs and data:** GraphQL (learning), REST, JSON

**Tools and workflow:** Git, version control, Bash scripting, JIRA, Figma, code implementation, Adobe Creative Suite (Photoshop, Illustrator, Premiere), WordPress, and PHP  
AI-assisted code generation

- Conducted testing and troubleshooting to resolve cross-browser and device compatibility issues, improving reliability and user experience.
- Provided end-to-end technical support for client projects, including issue resolution, updates, and post-launch maintenance.
- Collaborated directly with clients to identify requirements, recommend technical solutions, and deliver updates efficiently.
- Supported multimedia needs by creating and editing video and visual assets using Adobe Creative Suite, contributing to cohesive web and marketing experiences.
