SUMMARY

A creative, fast-learning developer who blends software engineering skills with strong design and communication instincts, quickly picking up new tools and technologies to ship practical, user-focused products.

EXPERIENCE

Patterns LLC

Operations Executive

Apr. 2026 – Present

Vadodara, India

- **Recruited for software development expertise** to manage operations for two US-based client accounts
- Built strong client relationships through clear communication on a **cleaning services project, earning the client's trust and leading to expanded seats**
- **Automated key operational workflows** using Make.com and Zapier, reducing manual work
- Designed and launched a **company landing website** (bettymillercleaning.com)
- Built a **real-time P&L dashboard** for a client's accounting/booking process, integrating with Tiller using **Next.js and TypeScript**
- Implemented **automated invoice generation** to track client investments

Nishant Technologies

Software Development Intern

Oct. 2025 – Mar. 2026

Vadodara, India

- Built the **first MVP and authentication system** for NutriWise, a smart food tracking and nutritional alert app, using **React Native (Expo) and TypeScript**
- Integrated **Google Gemini 2.5 Flash (GenAI)** to power personalized dietary advice based on food content and user health data
- Integrated a **large food nutritional database** to support real-time, personalized ingredient analysis

PROJECTS

Lumea Marketing | Freelance Web Developer

- Built and launched the company website (lumeamarketing.com), **fully SEO-optimized**
- Implemented **digital automations** to streamline client marketing operations

GoGuide | University Major Project

- Built an **AI-powered campus guide** for Parul University students to find classes, professors, and campus locations
- Designed **community features** enabling students to connect and stay updated on university events
- Owned the **MVP, authentication system, and overall product design** (designed in **Figma**); built with **React Native**

EDUCATION

Parul University

B.Tech in Computer Science and Engineering, Specialization in AI

Sept. 2022 – Apr. 2026

Vadodara, India

- **Coursework:** Discrete Mathematics, Data Structures and Algorithms, Computer Networks, Software Engineering, Databases, Artificial Intelligence, Machine Learning, Deep Learning

SKILLS

Languages : Python, JavaScript, TypeScript, HTML/CSS, SQL

Frameworks : React, Redux, React Native (Expo), Next.js

Databases : Firebase, PostgreSQL, MongoDB, SQL

Tools : Figma, Make.com, Zapier, Git/GitHub, Notion, Jira
